

**Corrugated Metal Pipe Manufacturing Pty. Ltd.**

**T/as - CMP Manufacturing**

**ABN 64 603 482 453**

**Capability Statement**

## INTRODUCTION-

**CMP Manufacturing** is a proud Australian family owned Company. Our commitment is to provide our clients with the highest quality manufactured products for road and rail construction, storm -water, forestry, irrigation, mining, civil infrastructure projects.

**CMP Manufacturing** is a division of **Trans Vent Spiral Tubing** which is a family owned business with manufacturing plants based in New South Wales and Queensland. Trans Vent Spiral Tubing has been manufacturing for over forty years. Specialising in spiral ducting, spiral welded pipe and sheet metal solutions ranging from air and vent ducting through to concrete formwork solutions as well as fittings and accessories.

**CMP Manufacturing's** Corrugated Steel Pipe (CSP) is manufactured in accordance with and compliant to -

### **AS/NZS 2041.4 - Buried Corrugated Metal Structures.**

Z600-G250 steel coil conforming with AS1397 is used in the manufacturing process, the Z600 galvanised coating is the heaviest commercially available protective coating as specified in the Australian Standard for it's high level of corrosion protection.

***“Our goal is to provide quality products, on time, to meet or better our client's requirements.***

***We aim to provide professional, flexible and outstanding customer service“***

## ***Mobile Pipe Mill (MPM) – currently 2 in our fleet --***

**Our Mobile Pipe Mills (MPM) are the most advanced two -truck mobile production units available. The MPM's provide a fast and cost effective “manufactured on -site” solution for the supply of galvanised or polymer coated corrugated steel pipe.**

**The Mills are designed as readily deployable and independent units which do not require extensive site works prior to commencing production.**

### **Mobile Pipe Mill (MPM) Capabilities --**

<b>Pipe Diameter (mm) -</b>	<b>300 to 7600</b>
<b>Steel Gauge (mm) -</b>	<b>1.6, 2.0, 2.5, 3.0, 3.5 &amp; 4.2</b>
<b>Corrugation Profiles (mm) -</b>	<b>68x13, 75x25, 125x25 &amp; 152x50</b>
<b>Production Output (Tonnes/shift)</b>	<b>- Available on Request</b>

***CMP Manufacturing* - offers complete pipe manufacturing facilities that can be readily mobilised to your next project for “on -site” production. Our Mobile Pipe Mills are purpose built, ready to haul by road to practically any accessible site without the need for special permits. On arrival at site it can be set up and producing in a matter of hours.**

**We offer a complete transport and logistics service. Pipes can be loaded in a nested configuration to provide the most economical delivery service.**

## **CMP Major Benefits -**

- **Reduced project lead times.**
- **Relocation to on - site with minimal delay.**
- **Significant transport and logistics savings.**
- **Robust product, easily handled on site, long lengths, light weight, quick installation.**

## **Corrugated Metal Pipe Applications –**

**Road Culverts**

**Railway Culverts**

**Storm-water Drainage**

**Conveyor and Access / Escape Tunnels**

**Stormwater Detention Tanks**

**Conduits for Air flow**

**Void Formers and Formwork**

**Half-pipe drains and flumes**

**Irrigation**

**Permanent Pile Liners**

**Underpasses**

## **CMP Manufacturing customers include --**

**BHP Billiton -**

**Qld Dept. Main Roads (TMR)**

**Glencore – McArthur River Mining**

**MMG - Century Mine**

**South 32 -**

**Batchfire Callide**

**Yancoal**

**BMD Constructions – Brisbane Airport**

**McConnell Dowell - Brisbane Airport**

**Lend Lease – Gateway Motorway**

**Golding Contractors - Bridge replacements (TMR)**

**CPB Contractors**

**Georgiou**

**Q Birt**

**Stanmore Coal**

As of July 2016 **CMP Manufacturing** -- purchased the assets of **Advanced Piping Solutions (APS)** from **Advanced Mining** of Western Australia.

With this acquisition - **CMP Manufacturing** can offer Mobile Pipe manufacturing solutions for your next culvert project Australia wide.

## **APS clients included. --**

**ROY HILL**

**BHP Billiton**

**BHP Yandi**

**Rio Tinto**

**Cape Lambert Port B**

**Fortescue Metals Group (FMG)**
